FOR IMMEDIATE RELEASE

TnT Partners and MBG Announce Joint Marketing Partnership

New York, NY August 26, 2003 – TnT Partners, LLC, a telecommunications consulting company, and MBG, an ASP of web-based Chargeback, Invoice Presentation and Asset Management Systems announced today they have formed a partnership to jointly market and provide services to Fortune 500 companies.

The two companies currently work together successfully managing the telecom expenses of a multinational investment banking firm. TnT Partners works onsite providing telecom audit, bill processing and provisioning resulting in improved service levels and significant cost savings. MBG provides the web-based systems responsible for IT chargeback, bill presentation and analysis and call accounting. All vendor invoices and client management reports are presented in a web-based format and available online. According to Michael Greenspan, President of MBG, “Our partnership is the best possible solution for large organizations seeking to outsource their telecommunications operations. It gives them unparalleled transparency into their data, via MBG’s easy to use web applications, but also allows them to totally outsource the operation with TnT’s highly skilled team.”

Michael Bodetti, President and CEO of TnT Partners believes the synergies of the two companies provide a total solution for Telecom Expense Management. “Working together, we provide our clients with better customer service, lower costs and critical management information—instantly. The alliance combines the strength of TnT Partners’ highly experienced, dedicated staff and the finest in telecommunications management software from MBG.”

The partnership formalizes the relationship that has resulted in the two companies recently issuing joint proposals to two multinational corporations. For more information visit www.tntpartners.com and www.mbg-inc.com.
